

# 12 8V LiFePO4 Outdoor Power Station

What is a LiFePO4 power station?

The stable chemistry of LiFePO4 power stations makes them ideal for certain environments - hot areas in particular - where it would be unwise to use a Li-ion power station. The most popular power station brand that uses LiFePO4 batteries is Bluetti . A battery's energy density refers to how much energy it can store per unit or volume of mass.

What voltage is a 12V LiFePO4 battery?

Most 12v LiFePO4 packs are made up of 4 cells which have a fully charged voltage of 14.6v and a discharged voltage of 10-12v, which is actually really close to a lead-acid AGM battery. So as far as voltage goes, you should be in the right area. A quality AGM lead-acid charger should also be CC-CV like a lithium charger would be.

How hot is a LiFePO4 power station?

LiFePO4 power stations are not affected by temperature as much as Li-ion power stations. A temperature of 30C (86F) will not significantly affect the battery's cycle life. Even 45C (113F) is not too bad. This makes LiFePO4 power stations perfect for use in hot climates and on boats.

What are the features of LiFePO4 Power Pack?

?Larger Capacity & Higher Wattage? Built-in 320Wh rechargeable LiFePO4 power pack, 300W max output which enough to meet your various power needs. Perfect emergency power backup for home / travel / camping / long road trips. ?LCD Display&LED Lighting?The LCD screen can clearly display the power supply and the on/off status of ports.

How many devices can a portable powerhouse power?

This portable powerhouse ensures your devices stay charged and ready, no matter where you are. With an impressive 582Wh capacity, it can power multiple devices at once. Ideal for outdoor adventures, camping trips, and emergency situations, it's the ultimate solution for reliable and convenient energy on the go.

Why should you choose a portable power station?

Since a portable power station is structurally stable, it does not easily ignite even if it is damaged. ?Wide Application?Portable power station can provide enough power for small end users, such as: smartphone /tablet /laptop /camera /light /drones/fans or other small power appliances.

8%#0183; Designed for long-lasting, reliable energy storage, the Duracell 100Ah 12.8V Lithium (LiFePO4) battery is perfect for the off-grid lifestyle. Lighter, more durable, longer lifespan, and with more usable energy capacity than ...
