

260AH 12V Lithium Battery Giant Power

What are giant power 260ah lithium ion batteries?

GIANT 260AH Lithium are perfect for applications that require either frequent cycling or renewable power storage. Giant Power 260AH Lithium Ion Batteries are a breakthrough in Australian Made Deep Cycle Battery technology.

What is a giant 260 AH 12V lithium deep cycle battery?

The Giant 260AH 12V Lithium Deep Cycle Battery is designed to replace deep-cycle AGM batteries. Lithium Batteries weigh only half of their AGM counterparts.

What is a giant 12V 260ah LiFePO4 battery?

Whether you are planning an upgrade from old AGM lead-acid batteries, or starting to build your first-ever off-grid power system, the Giant 12V 260Ah LiFePO4 Battery is your go-to option to get your project powered in an easier & reliable way.

What are giant power lithium ion batteries?

Giant Power 260AH Lithium Ion Batteries are a breakthrough in Australian Made Deep Cycle Battery technology. Giant Power Lithium Prismatic batteries are built using quality A-grade prismatic cells giving high quality conductivity and guaranteeing a superior LiFePO4 battery that is much stronger and more vibration resistant.

Which batteries can be charged with 240V Chargers?

Giant Power Australian-Made 260AH LiFePO4 batteries can be charged with 240V chargers, lithium DC/DC or solar panels & include an Active Cell Balancer that increases the battery lifespan. Giant 260AH Lithium Batteries have a higher energy density, voltage capacity and lower self-discharge rate than other rechargeable batteries.

What are giant deep cycle batteries?

Giant Deep Cycle Batteries feature an internal 200A BMS (Battery Management System) to limit discharge, manage cut-off voltage, and protect the inner battery cells. Giant Lithium Deep Cycle Batteries are the best Australian Made deep cycle batteries.

Giant Power lithium-ion batteries are ideal for storing solar energy, which is why they are considered one of the most popular Australian deep cycle batteries for Camping, Caravans, RV's, Marine and 12Volt power applications. Lithium-ion ...
