

300Kwh 400Kwh 500Kwh BESS Battery

What is a Megatron 500KW battery energy storage system?

MEGATRON 500kW Battery Energy Storage Systems are AC Coupled BESS systems offered in both the 20' containers. Each BESS is on-grid and can be AC coupled to existing PV systems making it an ideal solution for commercial/industrial customers.

How many kW is a Bess container?

Each BESS container has a 500kW inverter output making it easy for completing your renewable energy project. Multiple functionality modes allows simple switching between Grid and PV. All system systems are offered in either 400VAC or 480VAC 3 phase.

Are lithium-ion batteries good for Bess?

Although certain battery types, such as lithium-ion, are renowned for their durability and efficiency, others, such as lead-acid batteries, have a reduced lifespan, especially when subjected to frequent deep cycling. This variability in endurance can pose challenges in terms of long-term reliability and performance in BESS.

Can a 50kW Solar System be paired with a 100kW solar inverter?

MEGATRON 50kW to 150kW systems can be paired with 50kW to 100kW's of PV. Each BESS has either 50kW or 100kW solar inverter integrated into the containerized system. A solar combiner box is designed in to bring all the PV strings together at the correct DC voltage window.
