

What is a Narada NPFC battery module?

Narada HELiONTM NPFC series 48V LiFePO₄ battery modules are ideally suited for telecom base station, OSP, and renewable energy applications. NPFC series offer long cycle life, small size, reduced weight, and simplified installation as 19"/23" rack mountable modules.

What is Narada NPFC series?

Narada NPFC series is a complete range of 48V LiFePO₄ (Lithium Iron phosphate) battery products, for a wide variety of applications, such as telecom base station, UPS, renewable energy system, etc., with advanced life, standard size, light weight and strong environmental adaptability.

What is a 48V LFP battery module?

MPL series 48V LFP battery modules are ideally suited telecom, OSP, and renewable energy applications with a charge voltage of 54.5V. MPL series offer long cycle life, size, reduced weight, and simplified installation as integration (Pos/Neg termination) 19"/23" rack mountable modules.

Las principales características de la batería Narada 48NPFC100 48V 4,8kWh son: - La batería de litio Narada 48NPFC100 48V 4,8kWh cuenta con alta densidad energética y menor peso que otras baterías del mercado de ...

La batería de litio Narada 48NPFC100 48V 4,8kWh tiene un módulo BMS inteligente que permite la administración, soporte remoto centralizado y monitorización de baterías (voltaje, corriente, temperatura de las celdas y de ...

NPFC(Narada LiFePO₄) series is a complete range of 48V LiFePO₄ (Lithium Iron phosphate) battery products, for a wide variety of applications, such as telecom base station, UPS, renewable energy system, etc., with advanced life, ...
