

# 48NPFC50 Narada

## What is a Narada NPFC battery module?

Narada HELiIONTM NPFC series 48V LiFePO4battery modules are ideally suited for telecom base station,OSP, and renewable energy applications. NPFC series offer long cycle life,small size,reduced weight, and simplified installation as 19"/23" rack mountable modules.

## What is Narada NPFC series?

Narada NPFC series is a complete range of 48V LiFePO4 (Lithium Iron phosphate) battery products,for a wide variety of applications,such as telecom base station,UPS,renewable energy system,etc.,with advanced life,standard size,light weight and strong environmental adaptability. 1. High energy density 2.

What is a Narada helion LFP battery module?

Narada HELiION(TM) NPFC series 48VLFP battery modules are ideally suited for telecom base station,OSP, and renewable energy applications. NPFC series offer long cycle life, small size, reduced weight, and simplified installation as 19"/23" rack mountable modules.

## What is NPFC (Narada LiFePo 4) battery?

NPFC (Narada LiFePO 4) series is a complete range of 48V LiFePO 4(Lithium Iron phosphate) battery products,for a wide variety of applications,such as telecom base station,UPS,renewable energy system,etc.,with advanced life,standard size,light weight and strong environmental adaptability. o LiFePO4 (Lithium Iron phosphate) battery

## What is a 48V LFP battery?

Narada MPL series 48V LFP battery modules are ideally suited for telecom, OSP, and renewable energy applications with a max charge voltage of 54.5V. MPL series offer long cycle life, small size, reduced weight, and simplified installation as 19" rack Features mountable modules.

Do I need additional brackets for the 48npfc50?

There are no additional brackets required for the 48NPFC50. This battery is self supporting with the built-in wings.
