

48V 150AH Lithium Battery Sunway Solar

What is the operating temperature of a 48V 150ah battery?

Operating temperature: Charge at 0?~50?;Discharge at -25?~60?. ?More Advantages?: The 48V 150Ah batteries support recharging by solar power,wall outlet and generator. It can maximize the use of solar energy to save your electricity costs,get power immediately during a power outage and reduce carbon footprint.

Why should you choose Sunway stacked lithium battery pack with inverter?

Our innovative lithium battery packs can also perform important tasks. The Sunway Stacked Lithium Battery Pack with Inverter is a versatile solution for energy storage. With power options ranging from 5kw to 20kw, these battery packs are designed to operate effectively across a wide temperature range, making them suitable for various environments.

Who is Sunway solar?

Sunway Solar is an experienced PV supplier with a modern factory and an excellent team of engineers. Discover our top-quality solar panel products to fit your needs.

Why should you choose a lithium solar battery?

Our lithium solar battery offers a high voltage design, ensuring optimal performance. By operating at a higher voltage, our batteries reduce internal resistance and minimize heat generation, resulting in improved efficiency and longevity.

Why should you choose Sunway solar?

By operating at a higher voltage, our batteries reduce internal resistance and minimize heat generation, resulting in improved efficiency and longevity. What's more, with Sunway Solar's innovative HVLL (High Voltage Less Loss) technology, you can maximize electricity utilization and achieve greater power transmission.

SOLAR PRO.
