

# 48V 50Ah Lithium ion Lifepo4 Battery

## Shanli New Energy

What is a 48V LiFePO4 battery?

Canbat 48V lithium batteries come with a built-in battery management system (BMS), which protects against low temperature, high temperature, over-discharge, over-recharge and internal short-circuits. If you're looking for a large 48V LiFePO4 battery for your RV, boat, cabin or home, we've got you covered.

What is 48V renogy lithium iron phosphate battery?

The latest 48V Renogy Lithium Iron Phosphate Battery is taking the smart batteries to the next level. With built-in intelligent self-heating, you can keep your battery charged in cold environments effortlessly. The 48V nominal voltage ensures more than 4500 life cycle, low heat generation and high efficiency during high power transmission.

Why should you choose renogy 48V LiFePO4 battery?

Powered by an upgraded intelligent BMS circuit, the Renogy 48V LiFePO4 battery is resistant to load and temperature fluctuations. After extended use, the battery's chemical composition will start to deteriorate, and the over-voltage protection function will be triggered more often, stopping it from fully charging.

What is a renogy lithium ion battery?

Renogy's 48V lithium ion battery is a reliable and smart energy storage solution for residential and commercial applications. With Bluetooth connectivity and built-in protection, it's perfect for solar-powered systems and electric vehicles.

Why should you choose a 48v battery charger?

The 48V nominal voltage ensures more than 4500 life cycle, low heat generation and high efficiency during high power transmission. The modular design easily scales to meet a range of configurations--making it improve the average charging efficiency for your batteries in the long term.

Should I upgrade my RV battery to a 48v battery?

The most perceptible advantage of upgrading from 12V to 48V is that you will be able to use high-power electrical appliances in your RV. If you need to use high-power electrical appliances such as an air conditioner, refrigerator, or oven then a 48V battery will meet your energy needs and greatly enhance your off-grid living experience.
