

6 8 10KW Three-phase Hybrid Inverter OneSun

What is a sunsynk 3 phase 50kW hybrid inverter?

You have no recently viewed item. The Sunsynk 3-Phase 50kw Hybrid inverter is a highly efficient power management tool that allows the user to hit those 'parity' targets by managing power flow from multiple sources such as solar, mains power (grid), and generators, and then effectively storing and releasing power as and when utilities require.

What is a Deye 3 phase hybrid inverter?

The Deye Three Phase Hybrid Inverter, encompassing models SUN-5K-SG04LP3-EU, SUN-6K-SG04LP3-EU, SUN-8K-SG04LP3-EU, SUN-10K-SG04LP3-EU, and SUN-12K-SG04LP3-EU, is a sophisticated energy management solution designed for both residential and commercial solar power applications.

What is a Sunsynk 8kW Hybrid Inverter?

The Sunsynk 8kW Hybrid Inverter is a hybrid PV inverter charger compatible with Lithium-Ion batteries. It is ideal for hybrid, off-grid backup applications.

What is a solar inverter?

This series of inverters is engineered to integrate solar power generation with battery storage, ensuring optimal energy utilization and enhancing overall system efficiency. High Charging/Discharging Efficiency: The inverters support a maximum charging and discharging current of up to 240A, enabling rapid energy storage and withdrawal.

Which batteries are compatible with the inverter?

Battery Compatibility: The inverters work efficiently with both lead-acid and lithium-ion batteries, accommodating a voltage range of 40-60V, with a self-adapting Battery Management System (BMS).

What are the features of a solar inverter?

Noise and Ingress Protection: Noise levels are maintained below 55 dB, and they have an IP65 rating for outdoor use, ensuring durability in various environmental conditions. Design and Cooling: The inverters feature intelligent air cooling, compact dimensions (422mm x 658mm x 254mm, excluding connectors and brackets), and a weight of 38kg.

100% unbalanced output, each phase. AC couple to retrofit existing solar system. *Max. 10 pcs parallel for on-grid and off-grid. operation; Support multiple batteries parallel. Max. charging/discharging current of 50A. High voltage ...
