

60KW Polarity

What is a GEP 50-60kw Solar System?

The GEP 50-60kW offers up to 6 MPPTs and is the ultimate solution for commercial rooftop PV systems. This future-ready machine comes with film capacitor and fuse-free design, optional Type I surge protection on the DC side, ensuring faster trouble-shooting, longer life-span and maximum safety.

What are the features of a GEP 50-60kw inverter?

The GEP 50-60kW Series requires minimum O&M and offers an improved overall user experience for maximum comfort and minimum operation. All these intelligent features make the GEP 50-60kW one of the most future-proof inverters in its class. Max. Input Voltage (V) Max. Input Current per MPPT (A) Max. Short Circuit Current per MPPT (A) Max.

What is a goodwe SMT 50-60 kW inverter?

GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment brought by high yields with your commercial PV system.

What makes the GEP 50-60kw series a future-ready machine?

This future-ready machine comes with film capacitor and fuse-free design, optional Type I surge protection on the DC side, ensuring faster trouble-shooting, longer life-span and maximum safety. The GEP 50-60kW Series requires minimum O&M and offers an improved overall user experience for maximum comfort and minimum operation.
