

6V 8V Solar Battery CSBattery

What is CS battery?

Newest in 2016,CSBATTERY patented High Temperature Solar Deep Cycle long life Gel battery,best choice to work in hot/cold temperature sites and maintain long service life over 15years. Since 2003,CS BATTERY start the research and produce sealed free maintenance AGM and GEL storage batteries.

What type of battery is a 6V battery?

A 6V battery is a 6V maintenance-free,rechargeable sealed lead acid battery. It is used in the RMR-16 All LED Semi-recessed Emergency Light. The internal solid-state transfer switch automatically connects the internal battery to the LED board for minimum 90-minute emergency illumination. The universal knockout pattern on the back plate is for wall mount,and the battery snaps into place for internal electrical connections.

Who is cspower OPzV tubular gel battery manufacturer?

CSPOWER is a reliable Solar Battery provider and manufacturer,it expertises in OPzV Tubular Gel Battery in China. Our products sell well at home and abroad.

Where is CSBattery located?

CSBattery is located in a world-class,modern industrial park in Guangdong,Chinawith an annual production capacity of approximately 2,000,000kVAh. CSBattery has strong partnerships with many giant customers all around the world,including Huawei,Telefonica,GE,ABB,Siemens and Vodafone.

For which industries is CSBattery used?

CSBattery has strong partnerships with many giant customers all around the world,including Huawei,Telefonica,GE,ABB,Siemens and Vodafone. Our products have been widely used in many industrial sectors such as Oil&Energy,power grid,telecommunication,banks,medical treatment,transportation and education.

How long do VRLA batteries last?

VRLA batteries self-discharge less than 3% per month at 77°F (25°C). However,they should not be stored for more than 6 months at 77°F (25°C)without recharging. If in hot temperature,they should be recharged every 3 months. When batteries are taken out of long storage,it is recommended to recharge them before use.
