

7 OPzS 490 Master Battery

What are EnerSys powersafe 7 OPzS 490 batteries?

EnerSys PowerSafe 7 OPzS 490 Batteries are engineered with an optimized plate design and they feature increased capacity exceeding the DIN standard. Additionally the die cast tubular plate with low antimony content offers excellent cycling capabilities and a proven long life under float conditions.

What is a powersafe OPzS battery?

The EnerSys® range of PowerSafe® OPzS batteries has been designed for use in all standby power applications that demand the highest levels of reliability and security. PowerSafe OPzS cells benefit from an optimised plate design that results in increased capacity compared to the requirements of the internationally recognised DIN standard.

Are powersafe® OPzS batteries ISO 9001 certified?

Batteries must be installed in accordance with IEC 62485-2 and national/local regulations. The management systems governing the manufacture of PowerSafe® OPzS products are ISO 9001, ISO 14001 and ISO 45001 certified 2022 EnerSys. All rights reserved. Trademarks and logos are the property of EnerSys and its affiliates unless otherwise noted.
