

AS Solar Car Parking Carport Mounting System

How can a solar carport be simplified?

By specializing in parking lot and drive area coverage, we can simplify your carport project by configuring one of our solar ready carport styles or provide design services to develop a custom solar carport solution for your next renewable energy project.

What is the difference between a solar carport and a non-solar carport?

A non-solar carport will provide shelter for your car and is built out of typical building materials such as concrete, bricks or wood. A solar carport, however, is built out of solar panels and can provide energy to your home in addition to providing shelter for your car.

Should you install a solar carport in your parking lot?

Before long, solar carports will be present in most, if not every, parking lot. By installing a solar carport, owners have the benefit of generating power in an easily accessible, pre-owned area to power their existing operations or to produce additional revenue by selling power back into the grid.

What services does a solar carport provide?

Solar carports provide shaded or covered parking for autos. Project development and Fulfillment services: Site layout and coverage configuration. Architectural design and structural engineering. PV panel analysis - layout, alignment, orientation and optimization. Project quoting and presentation.

What is the difference between a solar carport and a ground mount?

The primary difference between a solar carport and a typical ground mount installation is that carports are taller to make space for a car to park. Otherwise, the two are similar, and each allows installers to orient the panels at the most optimal angle for sunlight exposure.

Should I use a solar carport instead of rooftop solar panels?

Even if your roof is newer, solar panels increase the risk of damage to the shingles. Damage to the roof in the area surrounding solar panels is often not covered by home warranties or home insurance. Therefore, using a solar carport instead of rooftop solar panels can be a safer option financially.

Solar Parks & Utility-Scale. PV Ground-mounted Systems. Sigma I. 1P/1V, 2P/2V - Configuration; Sigma II. 2P/2V - Configuration; 3P/3V - Configuration; 4P/4V - Configuration; East/West Configuration; PV Tracking Systems. Omega TR1. ...
