What is a solar mounting system?

Modern solar mounting systems consist of roof attachments (with or without flashing), mounting rails, and module clamps. These products are designed to allow workers to quickly and effectively install solar panels that will last for decades on the roof, with minimal effect on the roofing materials and no roof leaks.

What is a solar panel mount?

Solar panel mounts secure solar panels either to your roof or on the ground. Solar panel mounts typically account for 10% of the total solar panel installation cost. IronRidge and Unirac are the best options for roof and ground mount solar systems.
