

Alion Mounting SystemAMS Alion Energy

What is the Alion mounting system?

The Alion Mounting System uses an unfolding racking structure and slip-formed track ballast for fast field construction of fixed-tilt arrays on difficult sites. The track ballast enables low-cost, cleaning with water-carrying automated vehicles Fixed-tilt install in Mexico.

Who is Alion Energy?

As an innovative mounting technologies and O&M solutions provider, Alion Energy combines fixed tilt and single axis tracker technology with fully autonomous O&M robotics to guarantee maximum power generation at lowest possible overall cost from PV systems.

What makes Alion Energy the best tracker?

Alion Energy provides the best tracker, kept clean to deliver the most energy and ballasted to perform in the most challenging sites. Reflective, ballasted foundations, paired with automated cleaning solutions, plus a durable, high wind capable tracker design, improve energy yield and protect against performance loss.
