

Blade Series Hubble Energy

How many lithium cells does a Hubble blade have?

Max. Continuous Charging Current: 140A Max. Continuous Discharging Current: 200A Cells: 16 cells. New Li-ion LiFePO4 Blade Prismatic Cells Cycle Life: UNLIMITED CYCLES WITHIN THE HUBBLE LITHIUM 10 YEAR WARRANTY. (Ts &Cs Apply) The Hubble Blade features the safest lithium cells on the market and provides a whopping 10kW of power.

What is energy blade?

The Energy Blade is a light TPU plate built into the midsole of the PULSAR TRAIL MENS by Salomon Australia. It works in conjunction with the midsole foam and sole geometry to provide forward propulsion and stability on trails. Materials used include recycled products such as PET bottles or material waste.

What services does Hubble offer?

Hubble offers service and accessible assistance nationwide to resellers and end-users alike with a dedicated in-house technical support & service team. Hubble Energy is a leading battery manufacturer that designs, engineers and supplies lithium storage solutions from homes to large commercial applications.

What is Hubble Cloudlink?

The Hubble Cloudlink is an innovative device that allows for remote internet monitoring of critical battery settings and system features, which not only enables customers and installers to monitor their systems over the cloud but also assists our technical support team in quickly providing diagnostics and solutions with ease.

Which prismatic cells are used by Hubble energy?

We only use the highest quality prismatic cells from leading manufacturers. This includes BYD and CATL prismatic Li-ion cells, which are known to be the leaders in high quality lithium cells. We are thrilled to announce the launch of Hubble Energy's next-generation Container Solutions.

These advanced low voltage batteries are designed to connect effortlessly with the Hubble Cloudlink, enabling convenient remote monitoring. Notably, the Blade battery comes with a built-in Cloudlink. The AM-5, AM-10 and Blade batteries ...
