

## Blueplanet 155 165 TL3 KACO

What is a BluePlanet 155 TL3 string inverter?

blueplanet 155 +165 TL3 String inverters for utility-scale solar power plants up to multi-megawatt solar parks. Pushing the limits.

What is a BluePlanet 165 TL3?

Pushing the limits. The blueplanet 165 TL3 is the simple connection between low investment costs and high return on investment of large solar power plants with 1500-volt technology. For this purpose, the string inverter has an outstanding power density of over 2 kW/kg. Your advantages: light weight of less than 80 kg for easier installation.

Where is BluePlanet 125 TL3 located?

Tatvan, Turkey: The first 40 models of the blueplanet 125 TL3 went into operation at the beginning of July 2019. The 5 MW solar park is located on the western shore of Lake Van - the largest lake in Turkey as well as the largest soda lake in the world, with a particularly high salt content.
