

Where can I find information about energy access in Botswana?

Find relevant information for Botswana on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the TrackingSDG7 Botswana Page. The page covers Sustainable Development Goal indicators 7.1 energy access, 7.2 on renewable energy and 7.3 on energy efficiency.

How can Botswana improve electricity production?

Increasing the Botswana Power Corporation's profits on the sale of electricity. Reducing, and ultimately removing, Botswana's need to buy imported electricity. Generating revenue for Botswana from the export of electricity. Creating carbon credits by renewables and gas replacing coal in electricity generation.

Is hydrogen production a new high-tech industry in Botswana?

Hydrogen production would be an entirely new high-tech industry in Botswana. There are attractive commercial reasons to use CBM and atmospheric nitrogen to manufacture ammonia, urea and ultimately ammonium nitrate for use in fertilizer, explosives and as additive to diesel fuel.
