

Botswana energy storage machine manufacturer

How can Botswana improve electricity production?

Increasing the Botswana Power Corporation's profits on the sale of electricity. Reducing, and ultimately removing, Botswana's need to buy imported electricity. Generating revenue for Botswana from the export of electricity. Creating carbon credits by renewables and gas replacing coal in electricity generation.

How can Botswana contribute to decarbonisation?

Meeting Botswana's shortfall in electricity supply and contributing to decarbonisation. Creating a large Southern Africa energy/industrial hub suitable for manufacturing renewable energy and energy storage products, new-age materials, and products aligned with the resources sector.

Is hydrogen production a new high-tech industry in Botswana?

Hydrogen production would be an entirely new high-tech industry in Botswana. There are attractive commercial reasons to use CBM and atmospheric nitrogen to manufacture ammonia, urea and ultimately ammonium nitrate for use in fertilizer, explosives and as additive to diesel fuel.
