

Canopies Hélios RC3 Dome Solar

What is Helios RC3?

Used for fitting solar panels, Helios RC3 is a photovoltaic mounting system for car park canopies. It is used on metal or wooden structures and allows photovoltaic panels to be fitted in portrait mode or landscape mode.

How do Helios RC3 solar panels ensure watertightness?

Watertightness is ensured by water drainage around the edge of the solar panels. The Helios RC3 system from Dome Solar is a mounting solution for car park canopies. This solution is certified by a New Technology Survey (Enquéte de Technique Nouvelle - ETN).

Where are Helios RC3 rails made?

At Dome Solar, we are deeply committed to values related to local production. That's why, since 2023, our company has equipped itself with a production line that allows us to manufacture steel rails for the Helios B² and Helios RC3 mounting systems on demand, from our headquarters in Rezé(44, Loire-Atlantique).

Why should you choose dome solar?

Our photovoltaic mounting systems are designed to be strong, reliable, and easy to install. Made of steel or aluminum, they offer increased resistance to weather conditions and temperature variations, ensuring the durability and efficiency of your photovoltaic panels. At Dome Solar, we are deeply committed to values related to local production.
