

# Cape town energy storage container procurement

What is a battery energy storage system (Bess) in Cape Town?

The City of Cape Town has issued a tender for a battery energy storage system (BESS) with a minimum rated power output of 5 MW and energy storage capacity of 8 MWh. Geordin Hill-Lewis, Executive Mayor of Cape Town, announced this at a gathering on the site of the Atlantis solar photovoltaic (PV) plant.

Where is Scatec building a battery energy storage system?

**BUSINESS REPORT** Scatec is set to begin construction on the Mogobe battery energy storage system (BESS) facility near Kathu in the Northern Cape.

What can Cape Town do about water evaporation?

In addition, Cape Town is assessing further rooftop and small, ground-mounted PV projects and is piloting a floating solar facility at the Kraaifontein wastewater treatment works, which could reduce evaporation and deliver a higher yield as a result of its proximity to the water's cooling effect.

How can Cape Town reduce its reliance on Eskom?

In an effort to reduce its reliance on Eskom and to enable access to more affordable and reliable power supply, Cape Town Mayor Geordin Hill-Lewis announced that the City of Cape Town intends to procure up to 300MW of renewable energy from IPPs over the next few months.

Could energy storage systems help balance electricity supply and demand?

In a study from the International Institute for Sustainable Development (IISD), it is suggested that plans to deploy energy storage systems, including batteries and pumped hydro, could however significantly help to balance electricity supply and demand in the country.
