

Capwall Graphene Solid State Battery GTEM-48V15K-W Enerbond

What is a capwall energy storage system?

Capwall is designed for residential energy storage system. Compatible with most of famous brand inverters in the world, it is convenient for installation and maintenance. Based on supercapacitor technology, making the battery projected cycle life up to 20 years. Benefiting from solid-state battery, it uses solid and polymer electrolyte.

What is the difference between Capmega & Capwall energy storage system?

Capmega is the solution of containerized energy storage system, and the complete system includes BESS (usually Enerbond uses solid-state battery), PCS, switch cabinet, cooling system, fire protection system, EMS etc., with the features of high safety, ultra-long life, and high reliability. Capwall is designed for residential energy storage system.

What is Enerbond Caprack?

Enerbond Caprack is a flexible module design of graphene & solid-state battery to meet customer's customized demand for large power. The system provides the capacity design from 14.4kWh to 150kWh, and the voltage from 400V to 800V, which is expandable by adding more core modules.

What is Enerbond battery?

Based on supercapacitor technology, making the battery projected cycle life up to 20 years. Benefiting from solid-state battery, it uses solid and polymer electrolyte. Our batteries get extreme safety performance. Some of Enerbond products can be used at 5C~20C rate, and they are the perfect options for fast charging-discharging requirements.

What are the different types of graphene battery technology?

Modbus (RS485, RTU), Canbus, and TCP communication are available. As golf courses and recreational facilities seeking eco-friendly solutions that enhance efficiency and performance, the integration of Graphene Battery technology is poised to redefine the golfing experience.

Solid state battery, a perfect option for household solar energy storage system. Long life, stable performance, and maintenance free provide more benefits to end users. Wall & ground mounted available, with smart manage system. Max.

Ultra long life graphene solid state base energy storage system. Skip to content. No results Home; Products. Capwall; Capess; Caprack; ... Enerbond I& C battery energy storage solution meets growing energy demands and driving the world ...
