

Cellyte TRA series OPzS Flooded SEC Industrial Battery

What is SEC cellyte TRA?

The SEC Cellyte TRA series of OPzS flooded tubular single cells is a traditional design that complies with International DIN standards. The range is engineered with die cast tubular grids and optimised pasted negative plates to produce an excellent float life, outstanding cycling capability and a very high operational reliability.

What is cellyte TRA?

CELLYTE TRA - excellent float life, outstanding cycle rate. The SEC Cellyte TRA series of OPzS flooded tubular single cells is a traditional design that complies with International DIN standards.

What is cellyte TSG?

The Cellyte TSG is a premium Gel range, custom designed for all applications where deep daily discharges are required. The first-choice product for extreme renewable energy and semi-traction markets featuring true gel, SEC CatVent technology and thick high tin plates.

What is cellyte FTG?

The CELLYTE FTG range uses true gel technology combined with VRLA principles to give a front terminal range with excellent deep cycle capability. The result is a robust product that is ideally suited to hybrid telecom applications and areas with poor grid reliability.

What is a cellyte ups?

The UPS was designed for high power applications. The additional installation of the CatVent (TM) catalyst in the cell headspace greatly enhances the lifespan of the battery. If you're looking for a premier UPS solution, then SEC's CELLYTE UPS is for you. The ML is compact, robust and incredibly reliable.

What is a cellyte CMT?

The Cellyte CMT is our flagship large capacity VRLA AGM range, with extra heavy duty high tin plates & CatVent technology. In production now for over 30 years, it is universally acclaimed as the No.1 battery for all high integrity, high specification standby systems.

Flooded OPzS batteries provide superior float and cycle performance, with up to 20-year design life in renewable energy storage and backup applications. The batteries feature a transparent SAN case and sliding terminal poles to prevent ...
