

Clas Ground Mounting System

What is Clas roof mounting system?

Clas Roof Mounting System is widely used in installing of various tilted roofs and flat roofs photovoltaic systems.

What is a module mount system?

The module mount system is a fast, simple clamp, which fastens from below -- no need for ladders or leaning -- and provides an electrical bond without additional fasteners. Foundation options include OMCO-produced driven C posts (preferred), driven I or W posts, and ground screw foundations.

What are ground-mount solar panels?

Similar to rooftop solar panels, ground-mount solar panels derive their name from the location of their installation. These are simply solar panels in yards that cost a little more than the rooftop panels and are comparatively more convenient and efficient in energy production.

How do you install a gm-2 ground mount system?

Installation: GM-2 is a fixed-tilt ground mount system engineered to be the most cost effective and efficient design for any project condition. Installation begins with foundation installation, which typically consists of a driven structural post. Various other alternate foundations may be used on a project-by-project basis.

Why should you install ground-mount solar panels?

If you have a big open yard, ground-mount solar panels can help you get the maximum exposure to the sun. Proper installation of this eco-friendly energy generation method can help produce a high amount of renewable energy in a shorter period and cover the additional expenses compared to the rooftop version.

Where can ground screws be installed?

Ground screws can be installed in rock, bedrock, glacial till or caliche soils faster and more cost effectively than traditional piles. The racking is engineered as a continuous row, not a table, in order to follow the terrain with minimal row breaks.

Ground-mount systems are the literal foundation of solar projects, so choosing not just the right product, but the best manufacturer for each site or portfolio is crucial. In our Ground-Mount Buyer's Guide this year, EPCs and ...
