

Deep-Cycle Gel Batteries Trojan Battery

Which is the best deep cycle gel battery?

The Trojan 31-GEL 12V Deep-Cycle Gel Battery by Trojan Batteries is an industry leading deep-cycle gel battery with multiple terminal options to fit your application.

What is the Trojan 31-gel 12V deep cycle gel battery?

The Trojan 31-GEL 12V Deep-Cycle Gel Battery by Trojan Batteries is an industry leading Deep-Cycle Gel Battery with multiple terminal options to fit your application.

Who makes deep cycle batteries?

Founded in 1925 by George Godber and Carl Speer, Trojan Battery Company is the world's leading manufacturer of deep-cycle batteries. From deep-cycle flooded batteries to deep-cycle AGM and gel batteries, Trojan has shaped the world of deep-cycle battery technology with more than 85 years of battery manufacturing experience.

What makes Trojan batteries special?

The flagship batteries feature Trojan's historically proven engineering and T2 Technology(TM) for maximum sustained performance, longer life and increased total energy. Founded in 1925 by George Godber and Carl Speer, Trojan Battery Company is the world's leading manufacturer of deep-cycle batteries.

What is a Trojan flooded battery?

Trojan's deep-cycle flooded batteries are engineered to provide rugged durability, outstanding performance and long life and are perfectly suited for use in golf and electric vehicles. The flagship batteries feature Trojan's historically proven engineering and T2 Technology(TM) for maximum sustained performance, longer life and increased total energy.

Who makes Trojan batteries?

Founded in 1925, the Trojan Battery Co. is a third-generation family business that specializes in the design and manufacture of deep-cycle batteries. Trojan makes a complete line of deep-cycle batteries in both flooded cell and VRLA (AGM and gel) chemistries, in sizes that range from the smaller Group 24 to the heavyweight 8D battery.
