

2 &#0183; Calibrant Energy this month completed a 100% acquisition of Enel X Storage LLC, the DES business from Enel X North America Inc., for an undisclosed amount. Per the company, Calibrant now takes over Enel's more than 330 MWh of behind-the-meter battery energy storage projects (BESS) already in operation or under construction across North America.

The North America and Western Europe (NAWE) region leads the power storage pipeline, bolstered by the region's substantial BESS segment. The region has the largest share of power storage projects within our KPD, with a total of 453 BESS projects, seven CAES projects and two thermal energy storage (TES) projects, representing nearly 60% of the global ...

On Nov 22,2023, Datang Duolun 150MW Wind-Solar Hydrogen Production Demonstration Project, China's first medium-large off-grid demonstration project of deep coupling coal chemical technology for wind and solar hydrogen production, and the 175MW Renewable Energy Substitution Project of Datang Duolun Coal-fired Self-owned Power Plant broke ground.

Inner Mongolia Duolun Daxishan Wind Power Project is a 30.6MW onshore wind power project. It is located in Inner Mongolia, China. ... Emeren and Arpinge agree on 300MW battery storage portfolio in Italy ... It develops, invests, constructs and manages wind power and other renewable energy sources. The company also engages in the development of ...

On April 24, 2024, Anhui Ekingpow New Energy Technology Co., Ltd. (" Ekingpow "), a subsidiary of Duoulun Technology, and an American public transportation operation group signed a strategic cooperation agreement on charging stations at the intelligent manufacturing base in Nanjing.The two parties reached a consensus on the construction and ...

It is understood that the Mingyang Duolun Industrial Park wind power hydrogen production integration demonstration project is located in the Duolun Economic Development Zone chemical new materials recycling industrial Park chemical concentration zone, with a total investment of 800 million yuan, of which 350 million yuan investment in the ...

This groundbreaking project, led by the Hyundai Engineering and UGT Renewables consortium, marks a significant shift in Serbia's energy strategy. Serbia aims to boost green energy, reduce fossil fuel reliance, and stabilize its energy grid through this ambitious initiative. 1 GW Solar Power Project in Serbia: A Path to Energy Independence
