

# Duracell Power Center ESS Core Duracell

Does Duracell make microinverters?

The Duracell Home Ecosystem product line includes microinverters and a companion app in addition to its batteries. Currently, Duracell Power Center manufactures two lines of batteries: the Power Center Max Hybrid and the Power Center Essential.

How many kilowatt-hours can a Duracell battery store?

Duracell Power Center offers stackable home battery energy storage systems with usable capacities ranging from 14 to 80 kilowatt-hours (kWh). The best part? Based on quotes from the EnergySage Marketplace, they're significantly more affordable than most other batteries.

Which Duracell Power Center Battery is best?

Duracell Power Center features two lines of battery storage products: the Power Center Max Hybrid (our pick for best battery of 2024) and the Power Center Essential. These batteries are best for those looking to install a good sized storage system that provides ample backup power, at a cost that is sure to appeal to anyone.

How much power does a Duracell Power Center MAX hybrid use?

As mentioned earlier, the Duracell Power Center Max Hybrid starts at 15 kWh. Given a typical home needs around 11.4 kilowatt-hours of storage to back up essential appliances, the Max Hybrid might be too big for some folks. If you're looking for something smaller, we recommend the Villara VillaGrid 11.5 or the HomeGrid Stack'd Series.

How much does a Duracell battery cost?

At just \$533 per kilowatt-hour, the Duracell Power Center Max Hybrid is one of the most affordable battery systems on EnergySage. What's even more impressive is the performance Duracell delivers at this low price point.

Is Duracell a power center?

But the Power Center is not among the products manufactured by Duracell. Instead, the Duracell brand name has been licensed by a subsidiary of Omega Electronics Manufacturing Services (Omega EMS) called Power Center+.
