

Nostromo Energy Israel Privately Held Nostromo is an energy storage startup that has developed a revolutionary thermal energy storage cell which is the building block for a water-based energy storage system which is the safest, most cost-effective, clean, energy storage system. Nostromo's encapsulated ice energy storage solutions is called ...

Shuli Liu is Professor in the School of Mechanical Engineering, Beijing Institute of Technology, China, with about 20 years research experience. ... She aims to integrate the key strands of: application of renewable energy and sustainable technology; PCM thermal energy storage and Thermal chemical energy storage; building energy performance ...

Energy Storage and Green Battery Materials; Design and synthesize novel metal-organic frameworks (MOFs) and carbon-based composites; investigate their applications in hydrogen and natural gas storage; explore applications as active electrode materials and membranes in lithium-ion battery, sodium-ion battery, metal-air battery and fuel cells ...

Chuan Wu is a professor at Beijing Institute of Technology (BIT), where his research interests are energy storage and conversion materials and devices, including new energy materials, as well as monovalent and multivalent intercalation secondary batteries, such as lithium ion batteries, metal lithium batteries, sodium ion batteries, aluminum ion batteries, ...
