Container Café: Redefining the Dining Experience Container Cafe: Revolutionizing Sustainable Dining. The container cafe is a groundbreaking concept in the dining world, offering a unique, eco friendly approach to business. Made from repurposed shipping containers, this innovative cafe design not only catches the eye but also promotes environmental sustainability.

The Corvus BOB provides a safe, compact, space-efficient and scalable solution for housing batteries on board a ship, either on deck or below deck. Multiple containers can be combined to create larger energy storage capacities, providing scalability based on ...

A shipping container restaurant is a dining establishment constructed using repurposed shipping containers. These containers, typically 20 or 40 feet long, are modified to create functional, stylish, and sustainable restaurant spaces. This modular approach to restaurant design offers numerous benefits, including cost savings, reduced construction time, and environmental sustainability.

Explore TLS Offshore Containers" advanced energy storage container solutions, designed to meet the demands of modern renewable energy projects. Our Battery Energy Storage System (BESS) containers are built to the highest industry standards, ensuring safet

The first step we take when customizing a container for energy storage is adding insulation. These rigid, foil-faced boards insulate the interior of the container, and function as a barrier against water, vapor and air. BESS are also important for commercial development. With the expansion of electric vehicle charging infrastructure, battery ...

Our permanent or mobile shipping container cafes are durable, functional, and eye-catching. Perfect for businesses selling coffee, tea, smoothies, ice cream, acai bowls, etc, our container cafes can be designed with walk-up and/or drive-thru capabilities.
