Energy Storage Summit USA 2025 will provide the perfect platform to connect key industry players across the entire value chain of this buzzing US market.

Why should you attend the energy storage Conference?

Unlike other storage conferences, proceeds from the event help to fund high quality journalism across our media titles. Welcome to our Energy Storage Conference taking place in Austin, USA. Our two day event is the place for networking and learning amongst the entire industry.

Is energy storage a necessity?

Planned and currently operational U.S. utility-scale battery capacity totaled over 16 GW at the end of 2023, with another 15 GW in 2024 and around 9 GW now expected in 2025. Energy storage is no longer an aside or a luxury; it is a necessity if we want to reach our global net-zero goals and stay on track.

Should energy storage be regulated?

The European Association for Storage of Energy (EASE) have also stated that regulations must keep up with advances for the technology to flourish. The benefits of energy storage for both end users and the grid have already reached a tipping point where costs are justified for many business cases - this trend shows no sign of stopping.

The Energy Storage Global Conference (ESGC) is back! The conference's fifth edition will be held on 11 - 13 October 2022 and is organised by EASE - The European Association for Storage of Energy, with the support of the European Commission's Joint Research Centre, as a 100% hybrid event at Hotel Le Plaza in Brussels, as well as online.
