

FCT Series MCA Battery

Who is MCA battery?

For the company, we have ISO 9001, ISO 14001, ISO 1801 certificate. Besides that, we also got patent for gel battery, agm start-stop battery and some advanced design. Welcome to contact MCA battery, cooperate with us, let MCA power your life! We use China #1 pure lead, no recycle lead, so that we can control the good quality from the source.

What are the advantages of gas recombination in MCA batteries?

Using high purity raw materials ensures MCA batteries have less self-discharge. Gas Recombination technology ensures the battery high seal reacting rate, which can prevent the acid fog from separating out.

What is a gel series battery?

Gel series battery is manufactured with high-quality gaseous silicato make the electrolyte in uniform distribution. Curdled gaseous silica used in Gel batteries can immobilize the electrolyte and make the plates react evenly.
