

Is a battery storage project a good investment in Finland?

It is a very good complement to our renewable project developments in Finland," says Prot. Antero Reilander comments that while there have been other battery storage projects in Finland, this one is the biggest - by far. Despite the size of the undertaking, the project has proceeded very smoothly indeed.

Is Yllikkälä a suitable plot for a Neoen battery storage facility?

Customer Manager Antero Reilander from Fingrid says that Neoen inquired - via a consultant - in October 2019, if there would be a suitable plot for battery storage facility somewhere in Finland. "We made a survey of the entire country and quickly focused on Yllikkälä, which seemed like a really good fit for Neoen," Reilander looks back.

What are the applications of energy storage?

Combined with a high-quality control and energy management system, the energy storage has a large number of applications in the optimization of energy use in commercial buildings and industry, in support of the electricity grid and critical infrastructure, as well as in enabling the optimal use of renewable energy sources.

Rachel Rundle of Eku Energy speaks to Energy-Storage.news Premium about the developer's growing pipeline of battery projects in Australia. Launched in 2022 by Australian asset manager Macquarie's Green Investment Group, battery energy storage system (BESS) development platform Eku Energy has made a rapid start in building a global portfolio.

Battery Energy Storage Systems (BESS) can provide services to the final customer using electricity, to a microgrid, and/or to external actors such as the Distribution System Operator (DSO) and Transmission System Operator (TSO). ... Section 3 presents an overview of 10 case studies of storage in Finland. Section 4 presents the Finnish ...

The Vaskiluoto thermal energy storage facility is one of the largest energy reserves in use in Finland. The TES facility has been in operation since 2020. The facility can be used into the future regardless of the production mode, making it ...

The largest project collaboration is in the village of Arzberg in the Wunsiedel region of Germany. At 100MW/200MWh output and capacity, it was claimed to be the biggest grid-scale project in the country at the time of its announcement (Premium Access) in late December 2023, although it looks set to lose that title soon.. Developer Kyon Energy had ...

Below we list the 5 best known energy storage suppliers in Finland. Best Energy Storage Manufacturers in Finland. Fortum Fortum is a Finnish enterprise that offers Energy Storage for domestic and commercial

purposes. AutoGrid provides a variety of energy storage systems including both battery and hydrogen fuel cell based solutions.

Recently, we published the first part of this blog series, "Unravelling the complexity of merchant energy storage projects" which compared typical fossil fuel power plants to energy storage operations in merchant markets. This post will discuss considerations for evaluating merchant energy storage projects and offer suggestions to manage risks associated with the uncertainty ...

The Winter 2023 issue of Energy Global hosts an array of technical articles weather analysis, geothermal solutions, energy storage technology, and more. This issue also features a regional report looking at the future of renewables in North America, and a report from Theodore Reed-Martin, Editorial Assistant, Energy Global, on how Iceland ...
