

G Series 12V

Which tools are compatible with a G12 battery?

The 12V 2.0Ah compact battery is interchangeable with every tool in the G12 family line. The G12 series family includes the following power tools: 1. ratchet wrench, 2. impact wrench, 3. impact driver, 4. drill driver, and 5. mini polisher/sander.

Which tools are included in the G12 series?

The G12 series family includes the following tools: 1. ratchet wrench, 2. impact wrench, 3. impact driver, 4. drill driver, and 5. mini polisher/sander. (Free shipping applies to all items in the G12 series.)

How much torque does a G12 tool have?

The G12 Series tool can deliver up to 90 FT-LBS max torque with its powerful 12V motor. The G12 Compact Series includes a wide range of tools, from drill driver to ratchet wrench and polisher, all share a common slim 12V battery platform.

How many members are in a G series?

The fresh G series consists of four members with capacities ranging from 360 W to 650 W. All feature Gold capacity, a single +12V rail, ball-bearing fans, and high-temperature-rating electrolytic capacitors. All are based on modern platforms.

What is a G-series fan?

The G-Series combines the performance of 80 PLUS Gold efficiency with top quality, high electrical performance, advanced fan control and energy savings. The 360 W model features standard cabling design, whereas the 450 W, 550W, and 650 W units include semi-modular DC cables.

What is a SeaSonic G-series fan?

The Seasonic G-series product range contains many of the essential functions that high-end consumers require, such as 80 PLUS Gold certification, Energy Star qualification, superior output voltage variation rate (less than 3 %), Sea Sonic's S2FC fan control and a 120 mm fluid dynamic bearing fan to ensure optimal cooling and super low noise.
