

# GPL12V 250Ah VRLA Gel Battery

What is the difference between JYC GP series and Gal 12v250ah?

The deep discharge cycle life is increased 50% compared with the JYC GP series battery. GEL 12V250AH is capable of wide protected operation temperature ranges of -40° to 65° which is high cost-effective solutions for solar, wind power systems and other renewable energy systems.

How long does a 12V 250ah battery last?

GEL 12V 250AH Keep high cycle life at 25° (77°), 600 cycles at 80% DOD and 2300 cycles at 30% DOD. By using our revolutionary unique heat sealing and TTP welding technology, the battery has perfect performance in maintenance-free which can be used in outdoor and indoor environments without leaking or maintenance making it best in its class.

How many cycles can a gel 12V 250ah keep?

At minus 15° (minus 5 degrees F), the capacity also can up to 65%. GEL 12V 250AH Keep high cycle life at 25° (77°), 600 cycles at 80% DOD and 2300 cycles at 30% DOD.

What is JYC gel series battery?

JYC GEL series battery is manufactured with special separators and silica gel immobilizing the electrolyte inside the battery. The proven silica gel technology can improve battery cycle life and performance at wider temperature range. The deep discharge cycle life is increased 50% compared with the JYC GP series battery.

How long does a gel battery last?

The battery can conquer harsh environment, long lasting high performance in high and low temperatures. 12V GEL battery is designed for 12 years life time floating design life at 25°, 2V GEL battery is for 18 years. At minus 15° (minus 5 degrees F), the capacity also can up to 65%.

BATTERIE GEL 250AH 12V ULTRACELL Cette batterie gel 250ah 12v Ultracell est le meilleur compromis pour miser sur un dispositif de stockage abordable, performante et durable. Elle s'intègre à tout type d'installation photovoltaïque :
