

GS-Ground Mounting System Single Column Piling Grace Solar

What is GS screw pile?

GS screw pile is a new foundation in the ground mounting system for solar power generation, because it is widely adopted for environmental protection. The installation is convenient, the installation time is shortened, and the construction cost is greatly saved. It uses a special inclined screw tooth design to ensure its safety and stability.

What is Grace solar double pillar bracket?

Grace Solar double-pillar bracket is suitable for large-scale ground power plants in various terrains. It adopts open carbon steel cross section as support. With pile driving equipment, the installation speed can be increased by 50% compared with that of screw bolt, and the installation steps of foundation

What is Grace Solar Roof mounting system (hook)?

Grace Solar roof mounting system (hook) is suitable for color steel tile roof, magnetic tile roof, asphalt tile roof and so on. It can be fixed with the roof beam or iron sheet, select the appropriate span to resist the corresponding load conditions, and has great flexibility.

What does Grace Solar do?

Grace Solar pays attention to the development and cooperation of industry university research integration, and maintains long-term cooperation and technical exchanges with Tongji University, Central South University, Xiamen University and other famous colleges.

What certifications does Grace solar have?

Grace Solar products have passed certifications in many countries and regions around the world, including UL, TUV, CE, JIS, MCS, AS/NZS1170 certification. Also new Wind Tunnel Test Report, as well as bank ability report for our GS-light Tracker. Establish long-term and stable strategic partnerships with many Top 500 companies globally.

What is a fixed tilt solar mounting system?

The self-developed aluminum alloy fixed mounting system, due to its high quality, durability and standardized product advantages, aluminum alloy's unique quick installation structure and flexible layout style have become the most widely used solution in the construction of PV power plants. See details Ground fixed tilt solar mounting system
