

GSE Ground System GSE Integration

Why should you choose GSE ground system?

Functional, lightweight, aesthetic, quick to install, simple and universal! The GSE GROUND SYSTEM has been designed to allow the installation of 95% of photovoltaic modules on the ground. Its robustness and its material guarantee makes it a perfectly designed product for a quick and reliable execution.

Who is GSE Integration?

GSE Integration is a company that has been designing, manufacturing, and distributing photovoltaic panel fastening and integration systems since 2010. Born within the Groupe Solution Energie, GSE Integration has developed an innovation culture based on the on-the-ground needs of solar professionals and users.

What is a GSE ground mount system?

GSE Ground Mount system This intuitive system from GSE allows Solar PV panels to be fitted quickly, on the ground, without the need for expensive and labour intensive ground works or concrete. Quick to install Simple and safe to install, in less time and with fewer installation costs Our stocked version of GSE Ground used 2.4m

Where can a GSE integration system be installed?

for each format, on both small installations (less than 3 kWp) and large roofs (several hundred kWp). The GSE Integration system may be installed on wood or metal structures and mounted on battens or lathing. It can also be mounted directly on common rafters and can be installed on slopes between 15° and 50°. The GSE Integration

How does the GSE system work?

This system goes together quickly and easily. The plastic trays that interlock are fixed to battens, with the roof tiles fitting up to the flashing. The panels are then hooked onto the trays and clamped into place. The GSE system has trays to suit almost all common panel sizes - please check the attached Tolerance Table for further information.

What is a GSE solar PV system?

Product Details. This intuitive system from GSE allows Solar PV panels to be fitted quickly, on the ground, without the need for expensive and labour intensive ground works or concrete. Quick to install

Since 2010, GSE Integration has been designing and manufacturing mounting systems for standard photovoltaic panels. In 2018, we joined the European leader in pitched roof solutions TERREAL CREATON, a specialist in clay roofing and ...
