EPRI, in collaboration with Southern Company and Storworks, has recently completed testing of a pilot concrete thermal energy storage (CTES) system at Alabama Power's Ernest C. Gaston Electric Generating plant (Gaston) marking the largest such pilot in the world. The technology was developed by Storworks. The 10-megawatt hour electric (MWhe) energy storage solution is ...

Southern Power, a leading U.S. wholesale energy provider and subsidiary of Southern Company, has been awarded a 20-year power purchase agreement by Southern California Edison to add a battery-based energy storage resource at Southern Power's Tranquillity Solar Facility in California. The energy storage project will be owned in partnership

We estimate that by 2040, LDES deployment could result in the avoidance of 1.5 to 2.3 gigatons of CO₂ equivalent per year, or around 10 to 15 percent of today's power sector emissions. In the United States alone, LDES could reduce the overall cost of achieving a fully decarbonized power system by around \$35 billion annually by 2040.
