

What are high voltage cabinets?

Our high voltage cabinets are designed to ensure maximum safety and protection for personnel and equipment in high voltage applications. Our high voltage cabinets are made of high-quality materials that are durable and can withstand harsh environments.

Why should you choose our high voltage cabinets?

Our factory is known for producing top-quality electrical products with advanced technology and innovative designs. Our high voltage cabinets are designed to ensure maximum safety and protection for personnel and equipment in high voltage applications.

What is a high voltage box?

High voltage box typical 6.6kV, 8kV, 11kV, 24kV, 36kV and 40kV. The BARTEC high voltage range of enclosures are designed to meet the harshest environments and are ideal for any rugged medium voltage application where safety and flexibility is key. With its flexible design and certification, we are able to support up to 40kV in zone 1/2 and 2100 A.

Our high voltage cabinets are made of high-quality materials that are durable and can withstand harsh environments. Our cabinets are designed to ensure easy access for maintenance and repairs, and they are built to meet or exceed ...

We specialize in the production of switching stations, main ring units, high/low-voltage switchgear cabinets, three phase load control devices, pole mounted circuit breakers, cabinet type transformer substations, integrated distribution ...
