

# High Voltage DC 384V Lifepo4 Battery

Why use high voltage lithium battery systems? Let's give an example for solar lithium storage battery system field, imagine that when an 8kW hybrid solar inverter is used with a lithium battery, as a low voltage storage system, the ...

GSL ENERGY recently stated that the 384V high voltage solar LiFePO4 lithium battery storage system has been successfully put into use in Iraq for United Nations project. This project is located at the teaching building of University of ...
