Increase Your Energy Independence. Oftentimes, utility companies will charge more for electricity when demand is high. With a solar battery system, you can store your own clean, solar energy and use it to power your home when utility rates are usually at their most expensive, helping you save money on your electric bill.

Some battery storage systems only deliver 800w (watts) of power. No good if you want a cup of tea (your kettle needs 2000 watts). Likewise, if you're generating 4kW but the battery can only take on 3kW then 1kW will be heading to the grid, wasting your precious free energy.

Home battery energy systems are becoming a more common option for many homes in the United States, especially as a supplement to solar energy systems. Consumers are discovering that home battery energy systems may minimize dependency on the energy grid and lower prices during peak times as big energy suppliers change to time-of-use billing. This ...
