

How far can high-interest deposit collection go

Should you lock in 12-month CD rates?

Locking in 12-month current CD rates remains a smart move, as the returns still outpace the average savings account. Some of these CDs offer slightly better rates than even high-yield savings accounts. However, before you tie up your money for a year, remember that most CDs carry a penalty for early withdrawal.

How long does it take banks to catch up on CD rates?

"It typically takes banks three to six months to catch up on CD rate adjustments after the Fed stops raising rates," Negrón says. "However, the larger institutions, such as Bank of America, Chase Bank or Truist, will more than likely lower their CD rates pretty quickly." Negrón predicts that CD rates will drop below 3.75% by the end of 2024.

Should you lock in rates with a long-term CD account?

But with rates declining, locking in rates with a long-term CD account could be the way to go. Opening a five-year CD can be an easy way to maximize the amount of interest earned on your savings, because of course, the longer you keep your money in a CD, the more interest you'll earn.

Are CD rates slipping into 3% territory?

Longer-term high-yield CDs, such as three- to five-year terms, have been around 4% for much of this year and are now slipping into 3% territory. Skip down to see current CD rates. [COMPARE](#): Check out our best CD rates The Fed dropped its benchmark rate on Sept. 18, 2024. As a result, banks and credit unions have started lowering CD rates.

Do long-term CDs pay higher interest rates than short-term accounts?

Most of the time, long-term CDs pay higher interest rates than short-term accounts, but lately, that hasn't been the case. CD rates have been experiencing what's known as an "inverted yield curve," meaning shorter-term accounts have been paying higher interest rates than longer-term accounts.

Should you buy a CD over a high-yield savings account?

CD terms usually auto-renew at the rate offered at maturity if you don't do anything. One of the reasons you might want to consider a CD over a high-yield savings account is because savings accounts have variable APYs, and with a CD you lock in the rate the day you open the account.

Tangerine targeted 3-month new deposit promo for existing customers: 5.35% between October 3 and December 31, 2024; Meridian Credit Union: 5.20% (formerly 5.50%) for the first 4 months in a new savings account, both registered and non-registered ...
