

Why do the specs listed for this product indicate & quot;Battery: LR44 x 1; Solar cell built into front of calculator& quot;? Clearly this calculator doesn't have a solar cell. Is this even a G2? Why don't the specs list memory, CPU, etc.? Asked by: Jawless Leon. For full specs on this HP Prime G2 calculator please visit this link: [https ...](https://www.hoyprime.com/...)

Cannot find a source for a replacement battery for an HP Prime graphing calculator. Are HP Prime calculators just throw-away items when the batteries go out? Tags (1) Tags: HP Prime Graphing Calculator. View All (1) 9 people had the same question. I have the same question. 2 REPLIES 2.

Battery Energy Storage Cabinet 100KW/215KWh. The All-in-One liquid-cooled energy storage terminal adopts the design concept of "ALL in one," integrating high-security, long-life liquid cooled batteries, modular liquid-cooled PCS, intelligent energy management system, battery management system, efficient liquid-cooled thermal management system, fire safety system, ...

Yeah, the pin dot battery indicator is sketchy. Mine reads full until it's not... then it's nearly dead. It lasts about 2 full days of fairly heavy use, or about a month on standby. I keep thinking about getting the high capacity battery for it, but the battery ...

I have seen a test of the Prime battery on the internet and under the same conditions it takes more than 6 hours. I have also performed an EA656 DIAGNOSTIC, and it gives me OK in the battery test. However, after doing this test, I cannot turn off the calculator. It restarts when I try to turn it off, and even when the screen is shut down due to ...
