

# InfiniSolar V II 1 5 2 3 5KW On-Grid Voltronic Power Technology

What is infinisolar 2kw/3kw/5kw?

InfiniSolar 2KW/3KW/5KW is a hybrid inverter which combines solar system, AC utility, and battery power source to supply continuous power. It is suitable for remote areas where the cost of utility is too high or emergency usage when utility is not stable.

What is infinisolar v 4?

InfiniSolar V 4 is an upgraded version of the third generation of our InfiniSolar V. Equipped with a 4.3-inch color LCD, touchable button, and a customizable status LED ring with RGB lights. The high PV voltage range can be accepted, which will facilitate PV system installation.

What is infinisolar VII?

InfiniSolar VII is upgrade version for our InfiniSolar V first generation. This second generation inverter can accept high PV voltage range and this feature will facilitate PV system installation. Besides, battery independency feature will keep inverter running no matter battery is connected or not.

What is a second generation inverter?

This second generation inverter can accept high PV voltage range and this feature will facilitate PV system installation. Besides, battery independency feature will keep inverter running no matter battery is connected or not. We also offers parallel operation function up to 9 units for 2KW, 3KW, 5KW and 6KW.

What are the advantages of a high voltage PV inverter?

The high PV voltage range can be accepted, which will facilitate PV system installation. Besides, battery independency feature will keep inverter running no matter battery is connected or not. We also offer parallel operation function up to 9 units for 3.6KW, and 5.6KW. It offers high flexibility for future power expansion.

InfiniSolar 2KW/3KW/5KW is a hybrid inverter which combines solar system, AC utility, and battery power source to supply continuous power. It is suitable for remote areas where the cost of utility is too high or emergency usage when ...
