

What is a JL Jeep Wrangler?

The Jeep Wrangler (JL) is the fourth generation of the Wrangler off-road vehicle, available in two- and four-door bodies. Unveiled at the 2017 Los Angeles Auto Show on November 29, 2017, production of the vehicle began in November 2017.

How does the JL commercial end?

The commercial ends with Goldblum seated in the driver's seat of the aforementioned Jeep in a showroom, where a Jeep saleswoman asks if he would like to take the JL for a test drive, to which Goldblum replies that he has.

Where is the Jeep JL made?

As with its predecessors, the JL is produced at Jeep's Toledo Complex in Toledo, Ohio, and also was produced alongside its predecessor, the Wrangler JK, which remained in production until April 27, 2018. The simultaneous sales were to ensure that dealerships could meet demand.

Does a Jeep Wrangler JL have a grille?

Like past Jeep Wranglers, the JL keeps the exterior evolutionary and includes a grille that pays homage to the CJ generation produced from 1944 to the late 1980s. Stronger Dana 44 axles mean the Jeep Wrangler JL can take more abuse off the beaten path.

Is the Jeep Wrangler JL a good SUV?

The Wrangler JL is a terrific all-around choice if you are a new Jeep enthusiast. This fourth-generation model became available in 2018, and Jeep continues to put out an excellent SUV year after year with its JL option.

What parts fit a JL Wrangler?

On all these models, just about every non-specific aftermarket product designed for a JL Wrangler vehicle will fit. These include suspension components, wheels, bumpers and side armor, doors, exhaust kits, soft and hardtops, steering and brakes, lighting, floor liners, seat covers, consoles and plenty more.
