

The islands of Hokkaido and Kyushu, at opposite geographical ends of Japan's biggest populated island, Honshu, are Japanese renewable energy development hotspots and, more recently, have become the place to be for battery storage too. Yesterday, Energy-Storage.news reported that major Japanese conglomerate Marubeni is building a 103MWh 4 ...

You can read about the basics of the project and their background, with a rapid construction timeline that began in September 2022, and how the developer is one among many to spot the opportunities at present and that lie ahead for batteries in Japan, in our news report from 27 June. Below, we speak in further depth with Mahdi Behrangrad, head of energy ...

Among the notable winners, Orix Corporation's clean energy development arm secured a significant contract for its Maibara City Koto Energy Storage project, receiving a 96.2MW BESS contract award. Renova, Japan's only publicly traded pure-play developer of renewable energy assets, clinched contracts for projects totaling 215MW.

The project, under construction in Ishikari Bay, Hokkaido, Japan. Image: Pattern Energy. US-headquartered developer Pattern Energy has achieved financial close on an offshore wind project in northern Japan which will include a ...

Eku Energy's managing director for Japan, Kentaro Ono, at the groundbreaking ceremony for the Hirohara BESS. Image: Eku Energy. Eku Energy has begun its first battery storage project in Japan, while Gore Street Capital has raised funding for the country's first energy storage-dedicated fund. Eku: 120MWh project with 20-year tolling agreement

Details of the battery energy storage system (BESS) pilot are yet to be determined, with numerous possible regions being considered including the capital city Nairobi and the Mount Kenya region. ... World Bank Group has approved plans to develop Botswana's first utility-scale battery energy storage system with a capacity of 50MW/200MWh. Most ...

Battery storage stepped in and was among the technical solutions to prevent deviation in grid frequency, as seen in this LinkedIn post by Charlotte Johnson, global head of markets at Octopus Energy-owned optimiser and trader Kraken. "That was last week, and that has great implications in Japan as well," Amanai told Energy-Storage.news.
