

The nascent grid-scale energy storage market in Japan now has its first-ever dedicated investment fund, and it will be jointly managed by Gore Street Capital, which launched one of the UK's. Gore Street, which launched Gore Street Energy Storage Fund back in 2018, announced this morning (4 December) that it has been selected along with ...

There are also subsidies available via the Japanese Ministry of Economy, Trade and Industry (METI) covering a portion of the capital cost of projects selected for the ministry's programme to support the promotion of energy storage. Energy-Storage.news spoke earlier this year with the head of energy storage at developer Pacifico Energy, which ...

Products cover battery cells, modules, as well as large industrial and commercial energy storage systems, with an annual production capacity exceeding 15GWh The independently developed liquid-cooled energy storage battery system is the first in China to pass the UL9540A certification in both China and the United States

According to Japan's 6th Strategic Energy Plan, battery storage will be increased as a distributed source of electricity closer to end users and within microgrids. This new policy calls for an increase in installed solar capacity from 79 gigawatts (GW) in ...

The renewable energy arm of Japanese petroleum company Eneos said this morning (8 July) that it was selected through a scheme to promote the addition of energy storage technology at solar PV facilities, hosted by the Japanese Ministry of Economy, Trade and Industry (METI) Agency for Natural Resources and Energy.

Thank you for choosing Sony's energy storage module/controller. The energy storage module comprises of lithium ion rechargeable batteries with 1.2 kWh capacity, and the controller enables a central of multiple modules. This manual provides information regarding safety precautions to prevent possible accidents and how to use the product.

A battery energy storage system (BESS) comprising Tesla Megapacks with output of 10.8MW and 43MWh storage capacity has gone into operation in Sendai, Japan. Tesla Japan announced last week (4 June) that the large-scale battery system has been installed and begun operation at the site of Sendai Power Station, which is in Sendai City, Miyagi ...
