

# LandStar series Epever

What is a Landstar e/Eu controller?

The LandStar E/EU series controller is a PWM charge controller that adopts the most advanced digital technique. It's an easy operation and cost efficient controller. 3-Stage intelligent PWM charging: Bulk, Boost/Equalize, Float Support 3 charging options: Sealed, Gel, and Flooded Battery status LED indicator can indicate battery situation

Is Landstar E a good solar charge controller?

LandStar E (EU) series is a reliable, stable, and economical solar charge controller, easy to operate. Based on the LS-E series, the LS-EU series adds a +5V/1.2A USB terminal output which can charge mobile phones, power DC fans, and other DC electronic devices. Max. PV open circuit voltage What are the load working mode options?

What is a Landstar B Charger?

LandStar-B series is a common positive PWM charge controller. Thanks to the RS485 interface. The parameters can be configured via com. Port, APP, and PC software. It is widely applied to solar home systems, and surveillance system, etc., Max. PV open circuit voltage What is the Max. PV power of the charger?

Beijing Epsolar Technology Co., Ltd. Solar Charge Controller Series LandStar series. Detailed profile including pictures and manufacturer PDF ... VS-BN Series Epever PWM; EUR52.6 / Unit . DH series Daxieworld PWM; LS-B Series Epever ...
