

The purpose of the exhibition is to introduce visitors to the latest and most important technology advancements in energy production, conservation, and storage, as well as provide a space for exchange between companies, individuals, and institutions that provide loans and facilities related to this field.

Global PV inverter manufacturer and energy storage solutions provider Sungrow will supply equipment including battery storage to eight solar microgrid projects in Lebanon. Sungrow has signed deals with undisclosed local partners for what will be the first utility-scale microgrids to be built in the Middle Eastern country, it said yesterday.
