

Low Voltage 19-Inch LFP Battery Module Pomega

What is pomega energy storage?

Pomega Energy Storage Technologies. The PomegaCenter is a one-stop-shop for up to 6 GWh of IRA domestic content compliant energy storage technology manufactured in South Carolina, coming in 2024. LFP cells, modules, and turnkey battery energy storage systems currently manufactured at our factory in Ankara, Turkey.

What makes pomega a good battery cell manufacturer?

Pomega, which produces prismatic battery cells with proven Lithium-Iron Phosphate (LiFePO₄/LFP) chemistry, offers long life, high efficiency, easy integration and solutions to its customers. There are three different types of battery cell manufacturing - 100 ah, 150 ah and 280 ah - available

What does pomega do?

Pomega is dedicated to supporting the U.S. in its objective to achieve net-zero emissions by supplying the market with powerful, safe, reliable, and durable energy storage technology. We are Pomega, a battery energy storage company based in Virginia and South Carolina.

Where are LFP cells manufactured?

LFP cells, modules, and turnkey battery energy storage systems currently manufactured at our factory in Ankara, Turkey. We're partnering with leading research institutions in South Carolina to continuously develop powerful, efficient, and safe energy storage technologies.

Pomega's LFP Battery Cell is designed to power the largest and most robust energy storage projects under development. Our IRA-compliant domestic LFP battery offers power, safety, long cycle life, and reliability for utility-scale ...
