

MGA 4 Aluminum Ground Mounting

The aluminum ground mount structure can match different base, for example ground screw, pile or concrete foundation. It also can be used on flat ground or little sloped ground. The array can be placed 2*n vertically, 3*n, 4*n horizontally, or ...

(2-4 columns) The W-type pre-assembly support is mainly for the 4-5 columns wind & snow load condition projects. We will add cross support to make the structure stronger if the ground height is higher or wind & snow load is larger. ...
