

Madagascar - In line with commitments made last July, Rio Tinto QIT Madagascar Minerals (QMM) and its partner Crossboundary Energy (CBE) today laid the foundation stone for the solar and wind power generation project that will power the operations of the QMM ilmenite mine in Fort Dauphin, southern Madagascar. The ceremony took place in ...

Recently, the National Energy Administration officially announced the third batch of major technical equipment lists for the first (set) in the energy sector. The "100MW HV Series-Connected Direct-Hanging Energy Storage System", jointly proposed by Tsinghua University, China Three Gorges Corporation Limited, China Power International Development ...

The project also includes an 8.25 MW lithium-ion battery energy storage system. Around 18,000 solar panels and four wind turbines will enable QMM to meet all of its electricity needs during peak periods and up to 60% of its annual electricity consumption, as ...

Matt Tilleard, Managing Partner of CBE, said: "By establishing a commercial power plant that blends solar PV, battery energy storage, and wind power, the QMM project greatly improves the island of Madagascar standing as a regional renewable energy leader. CBE is pleased to take up this technical challenge.

As part of the new Malagasy government's 100-day program, renewable energy will play an important role in electrification initiatives over the next years. ... Madagascar energy transition journey is in progress and the country looks for investments, partnerships and collaboration. ... There are opportunities for the whole value chain ...

Although a large market, Brazil has been relatively quiet for battery energy storage announcements despite being a relatively early mover in trialling various different battery chemistries, as Energy-Storage.news reported back in 2018. Two years later, BloombergNEF reported that mining giant Vale would deploy a 5MW/10MWh system, the country's ...

Energy and real estate developer Groupe Filatex has created a new joint venture with French hydroelectricity firm Hyvity to increase the hydroelectric capacity in Madagascar. The new joint venture, ENHY, will focus on developing and repowering medium-sized hydroelectric installations.
